**2019 6th International Conference on
Control, Instrumentation and Automation
30-31 October 2019, Sanandaj, Iran**

About the Conference

The 6th international conference on Control, Instrumentation and Automation (ICCIA 2019) will be held on October 30th and 31st in Sanandaj, Kurdistan, Iran by University of Kurdistan.

The international conference on Control, Instrumentation and Automation (ICCIA) is being held biennial with the efforts of Iranian Society of Instrumentation and Control Engineers. The development and enhancement of technical knowledge, as well as the exchange of the latest scientific findings and research results in the field of control engineering, Instrumentation and Automation, which are the results of researches have been done by craftsmen, researchers and thinkers at research centers and universities both inside and outside of the country, will be the main objectives of the conference. Organizing keynote/invited speeches, scientific and technical presenting paper sessions as well as holding specialized tutorial programs will benefit participants with the latest achievements, scientific and commercial events associated with industrial control and automation.

Therefore, all researchers, craftsmen and enthusiasts are invited to submit their contributions and tutorials containing the latest findings about the conference topics to ICCAI 2019 via the conference online submission system.

Please visit <https://conf.uok.ac.ir/iccia2019> for more information and to register your interest.

Topics

- 1 Control Systems Analysis and Design: Linear Control Systems, Nonlinear Control Systems, Optimal Control, Adaptive Control, Robust Control, Intelligent Control, System Identification and Modelling.
- 2 Control Applications: Power Systems, Biomedical Engineering, Economy, Energy and the Environment, Oil, Gas and Petrochemicals, Mechatronics, Robotics and Smart Structures.
- 3 Industrial Automation and Instrumentation
- 4 Security and Networking in Control systems: Smart Grids, Internet of Things, Industrial Control systems Security and Network-based Control Systems.
- 5 Control Engineering Education
